Dragonlance's dynamic duo--the inimitable Margaret Weis and Tracy Hickman--continues to do no wrong, reviving the once-ailing world of Krynn with yet another solid book, the second in their War of Souls series. Which is not to say, of course, that Krynn itself is doing well. Far from it: as you might remember from the trilogy's debut, *Dragons of a Fallen Sun*, creepy Joan-of-Arc-type Mina is spreading the influence of her One God even further over the previously godless land. To top that off, the cursed magical shield protecting the Silvanesti crumbled with the death of the great green Cyan Bloodbane (who had been masquerading as an elf), and the hated Beryl has made a move on the Citadel of Light and the lands of the Qualinesti. And just in case you didn't read *Fallen Sun*, Weis and Hickman take great pains to bring you up to speed in the first chapter. What follows in *Dragons of a Lost Star* is the satisfying resolution to most of these threads, although--like it or not--that means a lot of interplay among the elves. But a literally earth-shattering finale with Beryl in Qualinost amply makes up for it, and that's just the appetizer for the main dish: the true identity of Mina's mysterious One God is revealed at last. Throw in some typical Tas antics for good measure (you've got to love that Device of Time Journeying), and you can count on being left antsy for this trilogy's concluding installment. --Paul Hughes
