## Description :

Presentation de l'diteur Lets say youre a corgi, you know, like the dogs Queen Elizabeth loves. And one back leg is paralyzed, so you use a wheelchair to get around. And lets say your owners, your primaries, think it would be ever so nice to go to London for a week. Sounds nice, if we overlook the paralysis part, right? But then lets say the plane youre on crashes over the Atlantic and you have to swim for it. Now what? Well if youre a really special corgi youll endure burning aircraft, three-legged swimming in icy waters, and vicious seagulls before you drift to Brighton Beach and then to Buckingham Palace to become known the world over as Oceandog. Translated from the computer program DOGSPEAK, The Kindness of Strangers tells Winnie's story directly from her point of view, spotlighting her ability to overcome the problems associated with paralysis, loss of a parent, extreme attention from the world media, and the awareness of her lack of ego and superego. Winnie's unique adventure will please the entire family with her comments on food, other dogs, and what it's like to live with humans.
